

Online Master's in Management

THE SCHOOL OF PROFESSIONAL STUDIES

OVERVIEW

The online master's in management from Brown University's School of Professional Studies is designed for early-career professionals who want to build a strong foundation in business practice. Grounded in evidence-based management, this program integrates data-informed decision-making, human-centered leadership and ethical frameworks. Students learn to combine analytical insight with an understanding of human behavior and organizational dynamics to address complex business challenges.

CURRICULUM

The program curriculum is designed to build essential business acumen and leadership capability through courses such as Foundations of Management and Leadership, Business Analytics and Decision-Making, Strategic Management and more. Students also explore topics including leadership ethics and professional integrity, developing the skills to make data-informed decisions, drive innovation, optimize operations and lead responsibly in today's organizations.
